#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This application has been re-opened for examination. Claims 1-9, 11-20 and 22-29 remain pending.
2. Applicant is advised that the Notice of Allowance mailed on 07/18/2005 is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-9, 11-20 and 22-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the

Art Unit: 2144

inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 16 and 24 recite the following functional limitation:

***means for determining how many electronic books are stored in the viewer, and if the number of electronic books stored on the viewer exceeds a maximum number, preventing the viewer from receiving additional electronic books from the file server.***

This limitation is not disclosed or described in the present specification.

This application benefits a priority of an earlier filing date as a continuation of application number 09/237825, filed on Jan. 27, 1999, which is a divisional of application number 08/336247 filed on Nov. 7, 1994.

However, there is no support in either one of the specifications of these applications. Further, it appears that the applicant is attempting to invoke 112, 6<sup>th</sup> paragraph “means plus function” language in order to impact functionality or structure from the specification to the claims. It is unclear what section of the specification is being relied on for claim interpretation.

Thus, claims 1-9, 11-20 and 22-29 are rejected, because the functional limitation disclosed above was not supported by the present specification.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yemane M. Gerezgiher whose
